Tutors' Alliance

Welcome

What an exciting time of the year it is with the exam results having just been released! First of all, I would like to congratulate our hard-working students for their great achievements, their supportive parents, and our passionate tutors. The results exceeded our expectations and we hope you will stay with Tutors' Alliance in the following year.

Did you know?

100% of parents would recommend Tutors' Alliance to other parents.

The new school year is approaching and we are looking at a very busy term filled with new tuition offers you can take advantage of. We are introducing Saturday classes, October Revision classes and the option of online tutoring, so keep on reading.

Saturday Classes

Tutors' Alliance will be offering term-time Saturday classes, from September to December (12 weeks). Tutoring in Higher English and Higher Maths will be available for groups up to four pupils at the Credo Centre in John Street.

The times are the following:
Higher English: 9.45am-11.15am
Higher Maths: 11.30am-1pm

The 12 week term is priced at £300 per subject. All the details and an online booking form can be found [here](#). Bookings for pupils must be received by 30th August and are on a first come, first served basis.

October Revision Classes

Tutors' Alliance is looking at offering Standard Grade October revision classes as a preparation for exams coming up in November. The classes would take place during the October holidays for 3 days.

Similar to the Easter Revision classes, there will be small groups so a lot of attention can be paid to each student's needs. The Easter Revision classes have proven to be highly successful with 99% of the students saying that the classes were very beneficial. Would you be interested? What subjects would you like us to offer? Would you be interested? What subjects would you like us to offer? Please get in touch by email to info@tutorsalliance.co.uk.

Online Classes

Also new on our agenda is online tutoring. Online tutoring enables students, who live in rural areas or those who prefer tutoring at out-of-hours, to receive academic help from our highly qualified tutors. Through the software the student and the teacher can communicate orally both ways, and the student can see the teacher and a white board to write on and share documents

We are still assessing the demand for this service so please indicate your interest by pressing on the link below.

Survey

On a different note

Over the past two weeks we had an intern join us at Tutors' Alliance, who helped us with marketing and human resources.

"I really enjoyed working for TA. I finally got to work with real data and Valerie has been a great mentor. It was great to observe real entrepreneurial spirit, and not just to learn about it at Uni.", she said.

Lili has joined us from Glasgow University, where she pursues her Masters in International Business and Entrepreneurship. "TA has grown so fast and is very well run. I hope I will be able to do the same one day... soon."

Exam Results

The big, infamous envelope has arrived and we are happy to announce that many of our students have achieved tremendous results. Many received better grades than predicted, which paves the way to their first choice university or a good start into a professional career. Some students have even gone from failing their preliminary exam in February to receiving an A in their Higher exam, showing commitment and hard work. Three Tutors' Alliance pupils received five A grades.

We would like to congratulate all students and hope to see them again in the next school year.

Enjoy the rest of your summer!

If you have any news that you would like to feed into this newsletter, please contact Valerie at Tutors' Alliance.
